

FIRST RESPONDER

The First Responder is the complete solution for all Emergency Responders. It is designed as a "One-Size-Fits-Most", alleviating the need to have multiple vest. The First Responder was designed **BY** Fire-Rescue / EMS Personnel **FOR** Fire-Rescue / EMS Personnel. Designed around Bunker / Turnout gear that is worn everyday by Fire-Rescue & EMS personnel. Our vest provides the same level of protection that is used by Law Enforcement, but **WITHOUT** the look of a Law Enforcement vest. Personnel can now be seen as a Medical Response versus a Law Enforcement Response.
